Projects

Rate My Landlord | Case Study

Personal Project | UX Design | June 2020

Rate My Landlord is an app designed to help mitigate the conflict that many landlords and tenants experience and encounter. The app not only serve as a rating platform but also a listing and a social platform. Feedback from Google UX Designers were implemented throughout the project

Palm COVID-19 | Case Study

COVID-19 UX Competition | UX Design | June 2020

PALM is a new way to think about hospital tents that helps better user experience, traffic and system. During a critical times like COVID-19, an efficient system could help hospital workers massively. Project was created in collaboration with a SCAD UX Designer and an Interior Designer.

Experiences

Freelance Web Developer

Atlanta, GA | Jan 2018 - Present

Worked with 5+ organizations from U.S., China, and Korea. Following iterative development and agile practices, I have collaborated with designers from various company (Yahoo and Tyler Perry Studio) to create a fully-responsive website using HTML, CSS, JS and react. When I was not working with a designer, I created web graphics using Adobe Illustrator and Photoshop.

Designer, Project Manager | Sign 11 INC

Jul 2016 - Jul 2017

Led the project "1 on 1", enhancing customer interactions increasing 20% more return customers compared to 2015. For the project, we used Mailchimp's mailing system and organized a new call routing system for better user experience. Also negotiated a new price agreement with FedEx, giving the company a projected saving of more than \$50,000 in the year 2017.
